PRUTHWIRAJ NAYAK

PROFILE

Seeking a position where I can contribute my skills to the organization's success while synchronizing with new technologies. I'm a Information technology student with genuine interest in coding. I have a working knowledge of Java (Spring Framework). I'm actively learning and working on Javascript(Node.js) and have knowledge on python. I also have experience in DApp development.

PROJECTS

Universal Medical Identity:
I have used Blockchain technology to track all the medical history of every individual by using the aadhar card.
CORE System:
In This website (Java MVC framework) is a transparent Complaint Redressal system for every problem encountered by students and staff of any Institution.
OnlineExam:
This is a online examination portal for students. It has portal for both Student and admin. Admin can add, update and delete student data, instructions and questions for the exam
