Courses
- Stream : Science

X (Secondary)
Govt. High School, Mathili

2014   *Percentage: 81.16%*

PROJECTS

Universal Medical Identity ⬀
- We are using Blockchain technology to track all the medical history of every individual by using the aadhar card.

etherVote ⬀
- Develop a complex voting system where voters can vote using their public-key. Here we design a transparent voting system based on Ethereum blockchain network.

d_Ola ⬀
- This web-application is a Cab booking web portal like Ola but based on Blockchain.
- Due to the use of Blockchain, the data storage cost will decrease to a immense level.

CoRe System ⬀
- Here we present a website for a transparent Complaint Redressal system for every problem encountered on campus by students and staff of CET, Bhubaneswar.

Prescription Writing App ⬀
- This Web-app is meant for prescription writing for the doctors. They have to log in and can prescribe medicine in printed form.

ResultManagementSystem ⬀
- It is the website which manages all the activity of examination department of our college.

SKILLS

Blockchain   Ethereum   React
Solidity   JAVA   JSP   C++
